FLOWAUTH

Key authentication and source protection for Roblox script hubs.

[Open dashboard](#)[Join the Discord](#)

Free plan, no card. Using FlowAuth means you agree to the [Terms of Service](#).

Total executions · All time

Runs on 16 executors

Delta

Vega X

Codex

SirHurt

Solara

Xeno

Volt

Potassium

Wave

SynapseZ

Madium

Cosmic

Real

Velocity

MacSploit

Opiumware

Everything a hub needs.

Key system

Issue, pause, expire, reset and bulk import keys per project. Set them to run out in a day or never.

HWID lock

A key binds to the first machine that uses it. Mismatches get refused and logged, and you can clear a binding when a real buyer changes PC.

Source protection

Your Lua/Luau stays server side and ships as a versioned protected package once the checks pass. It is never exposed as a static file.

Reward gateways

Send people through checkpoints before a key is minted, with custom getkey pages on the higher plans.

Discord bot

Execution logs

Every run, rejection, HWID mismatch and gateway failure lands in your logs, with webhooks if you want it pushed.

Start free. Pay when it pays you.

Every account opens on Free with 25 projects, 100 keys and 1,000 Centurion obfuscations a month, with no card and no timer.

Monthly

Yearly **20% off**

Plus

\$48_{/yr}

\$4/mo, billed yearly

One hub with a real customer base behind it.

✓ 100 projects

[Features](#)[Pricing](#)[Docs](#)[FAQ](#)[Discord](#)[Dashboard](#)
